

Cover Letter

To: Shubham152Info@Gmail.com

Subject: Job Application for Data Analyst Role

I am writing to apply for the entry-level Data Analyst position at your company. I have completed my Bachelor of Computer Applications and I am currently doing a Data Analytics course at TOPS Technologies. I am very passionate about changing raw data into useful information.

I have good knowledge of Python, SQL, Excel, Power BI, and Tableau. Recently, I completed a remote Data Analyst internship at Elevate Labs. During my internship, I worked on cleaning daily data and making interactive reports and charts. I also did a Software Development internship at Bluestock, which helped me understand web development and teamwork.

To practice my skills, I made a project called "Portfolio Optimization". For this project, I built a web app using Python, Django, and MySQL. The app takes live financial data and creates different charts and graphs to help users make better decisions.

I am a quick learner and I really enjoy solving problems with data. I would love to bring my hard work and skills to your team.

Please find my attached file named "Resume.pdf" to see more details about my education and work. Thank you for your time. I hope to hear from you soon.

Best regards,

Tanishka Rajput

Portfolio

Welcome to My Data Analytics Portfolio

Hello! My name is Tanishka Rajput, and I am a Data Analyst. Thank you for taking the time to look at my work.

I really enjoy working with numbers and turning messy data into simple, useful information. I have completed my Bachelor of Computer Applications and I am currently doing a Data Analytics course at TOPS Technologies.

In this portfolio, you will see some of the best work I have done using tools like Python, SQL, Excel, and Power BI. Here are a few highlights of my journey so far:

- **Power BI Dashboard (TOPS Technologies):** I was selected to be a part of an Industry Mentorship Event at TOPS Technologies. During this event, I built a detailed Power BI dashboard to present data clearly and help in decision-making.
- **Portfolio Optimization Web App:** I created a full web application using Python and Django. This app takes real-time financial data and turns it into interactive charts (like pie charts and line graphs) to help users understand their investments better.
- **Real-World Experience:** During my Data Analyst internship at Elevate Labs, I learned how to clean daily raw data and make reports that actually help a business.

I am always ready to learn new things and solve real-world problems using data. Please feel free to check out my projects below.

If you like my work and think I can be a good fit for your team, I would love to talk!

Best regards,

Tanishka Rajput

Recommendation Letter

To: Shubham1502@gmail.com

Subject: Internal Referral / Recommendation for Tanishka Rajput- Data Analyst Role

Dear Shubham Sir ,

I am writing to highly recommend my sister, Tanishka Rajput, for the open Data Analyst position in our company.

He has completed his Bachelor of Computer Applications and is currently doing a Data Analytics course at TOPS Technologies. Since I live with him, I have closely seen how hard he works on his skills. He has good practical experience from his recent remote Data Analyst internship at Elevate Labs, where he handled daily data cleaning and created interactive reports.

He is very good with tools like Python, SQL, Excel, and Power BI. He has also built some excellent projects on his own, including a real-time Portfolio Optimization web application and a detailed Power BI dashboard.

Because I work here, I know our company's culture and what is expected from the team. I am very confident that Tejas will be a great fit. He learns things quickly, is very dedicated, and works really well with others.

I have attached his resume with this email so you can check his full details. Please let me know if you need any more information.

Best regards,

Shubham Chavan

Experience Certificate letter

To: Shubham1502@gmail.com

Subject: My Work Experience and Certificate – Bold Analyst (Tanishka Rajput)

Dear Shubham Sir ,

I am writing to share the details of my work experience. I worked as a Data Analyst Intern at Bold Analyst Labs from June 2026 to July 2026.

I have the official experience certificate from the company, and I have attached it to this email for your reference.

During my time at Bold Analyst, I handled the following tasks:

- I managed daily data analytics tasks in a shared workspace.
- I cleaned and processed daily raw datasets to find useful information.
- I created interactive data visualizations and reports using that data.
- I uploaded all my completed tasks, codes, and final reports to GitHub every day.

This experience taught me how to handle a project from receiving raw data to delivering final visual reports.

Please check the attached certificate. Let me know if you need any other documents or information from my side.

Best regards,

Tanishka Rajput

Letter of interest

To: Shubham1502@gmail.com ,

Subject: Interest in Data Analyst Opportunities – Tanishka rajput

Dear Hiring Team,

My name is Tanishka Rajput , and I am writing to express my strong interest in joining Infosys Pvt Ltd as a Data Analyst. I have been following your company's work and I really like how you are growing in the market.

I have completed my Bachelor of Computer Application and I am currently doing a Data Analytics course at TOPS Technologies. I have good hands-on experience with tools like Python, SQL, Excel, and Power BI.

Recently, I completed a remote Data Analyst internship at Bold Analyst , where I worked on cleaning daily raw data and making visual reports for the team. I also enjoy building practical projects. I have developed a live Portfolio Optimization web app using Python, and I also built a detailed Power BI dashboard during an Industry Mentorship Event at TOPS Technologies.

I understand there might not be an open Data Analyst role at this exact moment, but I would love to be considered for any future opportunities in your team.

I have attached my resume with this email so you can check my full details. Thank you so much for your time. I hope to get a chance to speak with you someday.

Best regards,

Tanishka Rajput

Follow-up letter (after the interview)

To: Shubham1504@gmail.com

Subject: Thank You - Interview for Data Analyst Role / Tanishka Rajput

Dear Shubham Sir ,

Thank you so much for taking the time to interview me yesterday for the Data Analyst position. It was really great talking to you and learning more about the role and the team at Infosys Pvt Ltd .

After our conversation, I am even more excited about this opportunity. I feel that my skills in Python, SQL, and Power BI, along with my practical experience from my internship, make me a very good fit for your team. I would love to bring my passion for data to your company.

Please let me know if you need any other details, documents, or my project links to make your decision.

Thank you again for your time. I look forward to hearing from you soon.

Best regards,

Tanishka Rajput

Acceptance letter (after receiving job offer)

To: Shubham1504@gmail.com

Subject: Job Offer Acceptance - Data Analyst – Tanishka Rajput

Dear Shubham Sir,

Thank you so much for offering me the Data Analyst position at Infosys Pvt Ltd.
I am very happy to accept this job offer.

As we discussed, my joining date will be 1st September 2026 . I have signed the offer letter and attached it to this email.

Please let me know if you need any other documents or if I need to complete any other paperwork before my first day.

I am very excited to join the team and start my new journey with your company. Thank you again for this opportunity.

Best regards,

Tanishka Rajput

Declination letter (after receiving job offer)

To: Shubham1504@gmail.com

Subject: Update on Job Offer - Data Analyst – Tanishka Rajput

Dear Shubham Sir,

Thank you very much for offering me the Data Analyst position at Infosys Pvt Ltd. I really appreciate the time you and your team spent talking to me during the interviews.

However, I am writing to let you know that I will not be able to accept this offer. After thinking about it, I have decided to accept another job offer that fits my current career goals a little better.

It was a difficult decision because I really liked learning about your team and the work you do.

Thank you again for your time and this opportunity. I wish you and Infosys Pvt Ltd all the best for the future.

Best regards,

Tanishka Rajput

Leave-of-absence request letter

To: Shubham1504@gmail.com

Subject: Leave Request for Family Wedding – Tanishka Rajput

Dear Nilam Ma'am,

I am writing to request a leave of absence for 10 days , from 14-Aug-2026 to 24-Aug-2026

I need to travel out of town to attend a close family wedding. Before I leave, I will make sure to finish all my pending tasks. I have also asked my teammate, Sushil , to look after my daily data analysis work so that the team does not face any problems.

I will be back in the office 25-Aug-2026. I will check my emails if there is anything very urgent.

Please approve my leave request. Thank you for understanding.

Best regards,

Tanishka Rajput

Resignation letter

To: Shubham1505@gmail.com

Subject: Resignation – Tanishka Rajput (Data Analyst)

Dear Shubham sir ,

Please accept this letter as formal notice that I am resigning from my position as Data Analyst at Infosys Pvt Ltd .My last day of work will be 10th September 2026.

I have been offered a Senior Data Analyst position at another company, and I have decided to take this new opportunity for my career growth.

I want to say a big thank you to you and the whole team. I have learned a lot during my time here and I really enjoyed working with everyone. I am grateful for the support I received from you.

Before I leave, I will make sure to finish all my pending work. I will also help hand over my daily tasks to the team so that the work continues smoothly.

I wish you and the company all the best and a lot of success in the future.

Best regards,

Tanishka Rajput
