PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA graduate with a strong interest in Data Analytics and business intelligence. Currently pursuing a Data Analytics course at TOPS Technologies to strengthen my skills in Python, SQL, Excel, and Power BI. Passionate about analyzing data, solving problems, and creating meaningful insights. A quick learner with good communication, teamwork, and analytical skills, eager to apply my knowledge in a professional environment. Looking for an opportunity to contribute to organizational success while continuously learning and growing in the field of Data Analytics.

CORE SKILLS & TOOLS

Python	Numpy	Pandas	Machine Learning	Power BI / DAX	Tableau	Advance Excel
HTML/CSS	MongoDB	JavaScript	Django	MySQL	Github	ChatGPT / Gemini

WORK EXPERIENCE

Data Analyst Internship - Remote | Elevate labs

06 2025 – 07 2025

- Managed daily data analytics tasks in a shared workspace and provided end-of-day progress updates.
- Cleaned and processed daily raw datasets to extract meaningful information.
- Created interactive data visualizations and reports based on the processed data.
- Uploaded all completed tasks, codes, and final reports to GitHub daily for tracking.
- Ensured smooth end-to-end workflow from receiving raw data to delivering visual insights.

FEATURED PROJECTS (LEARNING-DRIVEN PORTFOLIO)

Car Purchasing Analysis — · Python · Numpy · Pandas

- **Predictive Modeling:** Engineered a regression model to predict car sales prices based on key customer attributes to streamline automotive sales forecasting.
- **Exploratory Data Analysis:** Conducted EDA on 500 customer records using Pandas, Matplotlib, and Seaborn to identify trends, outliers, and feature correlations.
- **Data Preprocessing:** Cleaned and optimized the dataset by removing irrelevant categorical variables and verifying data integrity for model training.

- **Algorithm Evaluation:** Trained and compared multiple models—including Linear, Random Forest, Decision Tree, and Gradient Boosting Regressors—using an 80/20 data split.
- **Model Optimization:** Selected a Gradient Boosting Regressor to resolve overfitting, achieving a robust 97.30% testing score and minimizing RMSE to approximately 1945.

EDUCATION

Data Analyst Course TOPS TECHNOLOGIES	06 -2026 - Present
Bachelor BACHELOR OF COMPUTER APPLICATION, SILVER OAK UNIVERSITY	2023-2026 CGPA : 7.41
Class XII SHIVAM VIDHYALAYA, GUJARAT BOARD	2023 Percentage: 62%
Class X SHIVAM VIDHYALAYA, GUJARAT BOARD	2021 Percentage: 77%
